

Kitikmeot Corporation Hosts Joint-Venture Seminar

November, 2007

On Wednesday, November 21st Kitikmeot Corporation (KC) hosted a “Joint-Venture Strategic Planning Meeting” at the Explorer Hotel in Yellowknife, held during the same week as the Geosciences Forum. Fred Hunt, President of Nunasi Corporation, was the facilitator for the meeting.

The meeting fulfilled a number of objectives, including:

- a) Inter-Company Introductions – Many of our companies had never met the principals from our other companies, nor key representatives of affiliated organizations including Fred Hunt of Nunasi Corporation, and Carmen Loberg of Norterra;
- b) About Kitikmeot Corporation – Providing a brief outline of what we do, and the beneficial consideration/bidding preference (under the Nunavut Land Claims Agreement) that Kitikmeot Corporation brings to its partnerships; and
- c) Inter-Company Business Development – Review of opportunities where business may be done between our family of companies, as opposed to seeing this business arranged outside of our group.

The seminar was a tremendous success, and participants came away with a number of action items that will enable our family of companies to maintain the momentum initiated by this meeting, and achieve the goals that were set.
